Montana Environmental Quality Council
PO Box 201704
Helena, MT 59620-1704

To Whom It May Concern;

The City of Glasgow is currently preparing an Environmental Assessment as part of fulfilling the requirements of the Montana Community Development Block Grant (CDBG) program for an application to the Montana Department of Commerce under the CDBG Noncompetitive Housing Rehabilitation program. As part of this effort, the City is requesting comments from applicable Federal, State and Tribal agencies in regard to any possible environmental effects of the proposed activities. Any comments are requested to be received by the City within 30 days of the receipt of this letter.

Proposed activities will primarily focus on the rehabilitation of single-family owned residential structures owned by households whose annual incomes do not exceed low and moderate income limits established by the U.S. Department of Housing and Urban Development (HUD). Attached you will find an estimated percentage of 51 to 75% of low to moderate income individuals in the targeted area. The target area for assistance is the portion of Glasgow lying south of U.S. Highway 2 highlighted on the enclosed map. Proposed housing activities may also include acquisition of land or structures, demolition, new construction, provision of related site improvements, community renewal activities, home purchase assistance, provision of temporary housing, and rehabilitation of single family housing units.

Your input on potential environmental considerations for this project will be included in the City's grant application to the Department of Commerce.

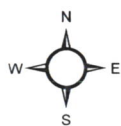

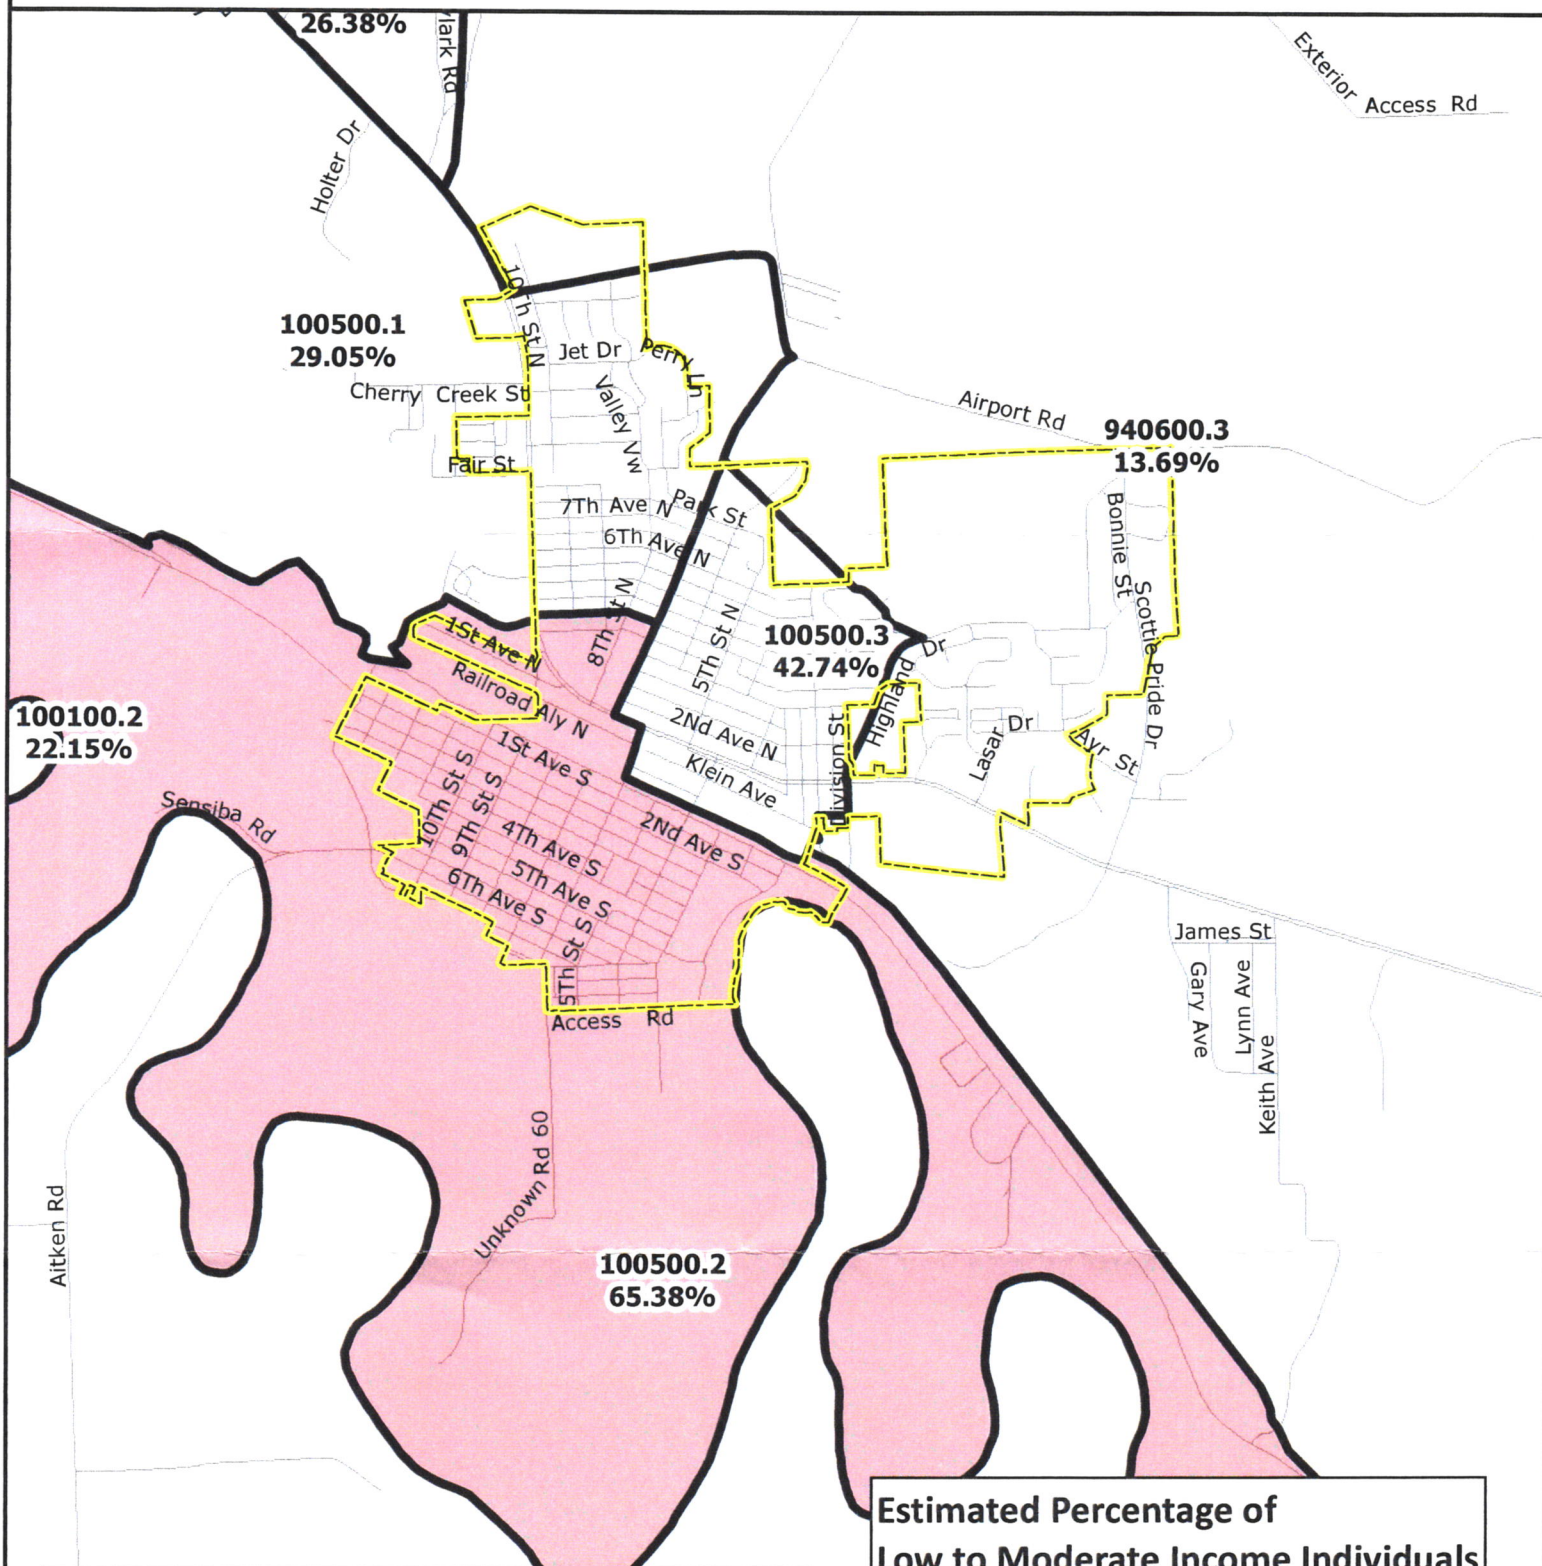

Thank you for your time and consideration.

Sincerely,

Stacey A. Amundson
City Clerk-Treasurer
Designated Environmental Certifying Official
